

Is an error

Posted by Girma Taddese - 2007/12/04 12:24

Unable to get installer types in the c:\agwa2 desktop.dil assembly
Unable to load one or more the requested types. Retrieve the loader exceptions

Is the above an error?

Do you get the message during the installation or somewhere else? If you get it during the installation, then please see this thread

If this error is occurring after the installation is complete, we need to troubleshoot it because I'm not sure what the problem would be.
